

fact sheet

neck fit contour serum

description

This firming serum is a skin care workout for your neck and décolleté.

key benefits

- **Immediately tightens skin**, and tones it over time.
- **Visibly lifts** skin's appearance.
- **Smoothes and firms** skin with Retinol-like results.

key ingredients

- **Flex Lift Contour Technology**: provides a visible lifting and tightening effect; smoothes fine lines; and helps protect skin against pollution, which can lead to premature signs of skin aging.
- **Rye Seed Extract**, a novel **Palmitoyl Tripeptide-42** and **Rambutan Extract**: work together to deliver Retinol-like results, visibly smoothing, firming and toning skin.
- **Resurrection Plant-inspired polysaccharide**: helps strengthen skin's moisture barrier for a smooth, even appearance.
- **Griffonia Seed Extract**: provides antioxidant defense to help safeguard results against free radicals.

how to use it

Turn applicator ON. Tilt chin up and roll applicator over entire neck, from décolleté up to jawline. Gently squeeze tube to dispense a thin layer of serum while rolling. Return applicator to the OFF position and continue rolling it in an upward motion over skin to massage in the serum. Keep chin up until serum dries. Use morning and night.

frequently asked questions

What is Neck Fit Contour Serum?

It's a lightweight, roll-on serum for the neck and décolleté that immediately tightens skin, and tones it over time, for a more visibly lifted and sculpted appearance.

What makes it special?

This serum contains high-performance Flex Lift Contour Technology, which acts like invisible mesh to provide a visible lifting and tightening effect on skin. It also smoothes fine lines and helps protect skin against pollution, which can lead to premature signs of skin aging.

Why is a separate product needed for the neck?

No matter how healthy your face looks, your neckline can tell a different story. That's because neck skin is thin, delicate, and more vulnerable to sun damage, photosensitization from fragrances, and the wrinkle-deepening motion of looking down at your devices. It also loses strength and flexibility with age while neck muscles weaken underneath. These factors can exacerbate the appearance of lines, creases and sagging.

How much of this product should I use?

A little goes a long way! Only a thin layer of this serum should be used, so give it a gentle squeeze during application.

How long does the tightening effect last?

Since everyone's skin (and skin care regimen) is different, the duration of the tightening effect will vary from person to person.

Can I layer this over or under other serums?

This product is optimized to work with the skin on the neck, which is thinner than that on the face. We do not recommend applying a second serum either beneath or over Neck Fit Contour Serum, as it could interfere with the efficacy of the Flex Lift Contour Technology. Only moisturizer and SPF should be applied over this product.
