

dermalogica

Hello Professional Skin Therapists,

We're so glad you've been enjoying our 2023 innovations. We have more exciting innovations launching soon, but as always, we need to make room in our product portfolio to introduce new products. Here you'll find the discontinuations occurring in the remainder of the year.

US Product and Size Phase-Outs:

There are (4) retail phase-outs, (2) pro phase-outs, and 1 kit phase-out. Please review the attached details, including estimated run-out dates and suggested substitutions. Although it is difficult to say goodbye to any Dermalogica product, we are confident that our upcoming innovations will be worth it.

We encourage you to partner with your Business Consultant on how to grow your business with our hero products and latest innovation launches.

Thank you, as always for your ongoing partnership!

Best,

Diana Dennett
