

## Hands-On Dermalogica Expert Assessment

In this hands-on assessment, participants will have the opportunity to showcase their proficiency in skincare and treatment techniques. The assessment aims to evaluate both product selection and technique execution, ensuring a comprehensive understanding of Dermalogica products and service protocols. Assessments are available in person or via streaming with limited seating to ensure personalized feedback.

### Assessment Guidelines:

**1. Choose one of the services from list below to perform on a model:**

Pro Skin 30    Pro Bright 30  
Pro Calm 30    Pro Clear 30  
Pro Clear 30    Pro Firm 30  
Luminfusion    Pro Power Peel 30

**2. Services not included in assessment:**

Pro Dermaplaning    Pro Microneedling  
Medispa: Advanced Service Techniques  
Pro Micropeel

**3. Touch Therapies:**

Touch Therapy will not be required during your assessment.

4. Completion of 4 skills training workshops is required prior to taking your Expert assessment.
5. Hands-On Assessment is limited to licensed individuals only. Model is required.
6. Students who pass the assessment will be awarded Dermalogica Expert Certificate and Digital Badge.

## What to expect during your assessment?

Participants will be required to perform a service of their choice (from the service list) on a model.

## The assessment will focus on the following key aspects:

**Communication:** Consultation/FaceMapping/Product Selection/ Retail/Rebook Recommendations

- Effective communication with the client/model to assess their skin needs and determine if there are any considerations/contraindications.
- Addressing client/model concerns and providing relevant skincare recommendations.
- Verbally explain to your observing instructor the reason for your product selections and application methods (i.e. power up or power down).

## Product Selection:

- Demonstrating the ability to choose appropriate products for the selected service.
- Knowledge of product ingredients and their benefits for specific skin concerns.

## Technique Execution:

- Proper Dermalogica application techniques relevant to the chosen service.
- Adherence to Dermalogica best practices and safety protocols.

## Observation and Evaluation:

- Participants will be observed by Instructor to ensure correct product application and technique execution.
- Instructor will provide constructive feedback on areas of strength and improvement.

## Assessment Details:

- **Time Frame:** Participants will register for a 2-hour assessment workshop. Lesson plan will include instructor overview, expectations and allow time for one-to-one feedback. Your hands portion will include 60-minutes to perform Consultation, FaceMapping and 30 min service protocol. This added time allows for interactive communication with your assessment instructor.
- **Equipment and Products:** All necessary equipment and products will be provided by the learning loft. D Streaming participants are required to have all products/equipment necessary to perform service protocol.

## Attire:

- Participants should come dressed in appropriate professional attire for skincare services.
