LUMINOSITY THAT LASTS

service chart

double cleanse	resurfacing (option 1)	resurfacing (option 2)	enhancement (optional)	deep treatment	dermal layering	home care
<ol style="list-style-type: none"> Dispense 1-2 pumps PreCleanse and manipulate on dry face for 1-2 minutes. Emulsify with water and manipulate for 1-2 minutes then remove with damp sponges or esthetic wipes. Perform Face Mapping. Dispense 1-2 pumps Daily Glycolic Cleanser and emulsify with water to perform a second cleanse and remove with damp sponges or esthetic wipes. 	<p>Choose MultiVitamin Retinol Peel for clients with aging, dry, or sun-damaged skin who need a smoothing, nourishing treatment with minimal sensory stimulation.</p> <ol style="list-style-type: none"> Beginning at section 1 apply 1-2 drops of MultiVitamin Retinol Peel and perform nanoinfusion with Pro Pen following the Dermalogica Technique. Continue this process through section 18. Remove MultiVitamin Retinol Peel by dispensing 1/2 teaspoon Daily Microfoliant into a cup and add water. Mix until frothy and apply all over face with fan brush. Note: Avoid eye area within orbital bone. Use steam towel to remove the exfoliants. Option: Use a cool, damp towel if client felt more activity during nanoinfusion. 	<p>Opt for Plump Peel when skin is dehydrated, dull, or showing fine lines—and when you want to deliver a hydrating, brightening boost with a tactile, fizzing experience that energizes the skin.</p> <ol style="list-style-type: none"> Beginning at section 1 apply a very small amount of Peel Balm and perform nanoinfusion with Pro Pen following the Dermalogica Technique. Continue this process through section 18. Shake the Plump Activator well and apply section by section. <ol style="list-style-type: none"> Apply 6 drops on fingertips and spread on forehead, then press over this area for 10 seconds. Apply 4 drops on fingertips and spread on each side of the face, then press over these areas for 10 seconds. Apply 2 drops to the fingertips and spread on the nose, upper lip, and chin, then press over these areas for 10 seconds. Use steam towel to remove the exfoliants. Option: Use a cool, damp towel if client felt more activity during nanoinfusion. 	<ol style="list-style-type: none"> Following Double Cleanse, apply Pro Power Eye Peel patches to the curvature of the under-eye area. Perform resurfacing and nanoinfusion within sections 1-6. Remove eye patches and adjust Pro Pen range to 0.2 and choose frequency setting 1-3. Perform nanoinfusion within the under-eye area. Readjust Pro Pen setting for client's skin type and concern. Continue resurfacing and nanoinfusion over remaining sections. 	<ol style="list-style-type: none"> Apply a layer (1tsp) of Light Energy Masque to the entire face with a fan brush. Protect the client's eyes with a dry, folded esthetic wipe and LED goggles. Proceed with red light therapy over the masque for 10 mins. Remove LED light and protective eyewear. Remove Light Energy Masque with steam towel. 	<ol style="list-style-type: none"> Spritz skin with 3-6 pumps of Antioxidant HydraMist. Apply pea-sized amount of BioLumin-C Eye Serum under eyes and apply Dynamic Skin Recovery SPF 50 to full face. Finish with a final spritz of 3-6 pumps of Antioxidant HydraMist. 	<ol style="list-style-type: none"> Prescribe a home care system to be used in between LuminFusion services. Add other complementary product tailored to client's skin needs.
