

dermalogica expert

Congratulations on reaching the final step toward becoming a Dermalogica Expert! You have successfully completed all course requirements, now it is time to showcase your knowledge by delivering a hands-on treatment.

By completing the Dermalogica Expert Program, you are celebrating and reinforcing your dedication to the ever-expanding skin care industry and expertly representing the #1 professional skincare line in the world!

Please take a moment to review the below document, providing you with an overview of Dermalogica's Expert Assessment, hands-on treatment agenda, with added guidance and suggestions for preparation.

Prior to your hands-on practical, we recommend that you book time to connect with a Dermalogica Instructor to help you prepare.

During the hands-on assessment, participants will have the opportunity to showcase proficiency in skincare and treatment techniques. The assessment aims to evaluate both product selection and technique execution, ensuring a comprehensive understanding of Dermalogica products and service protocols.

Assessments are available in-person or d streaming with limited seating to ensure you receive thorough, personalized feedback.

dermalogica expert

Qualifications

- ☐ Complete a set number of designated workshops from each category.

become dermalogica certified
get started with dermalogica
franchise focus

complete workshops of your choice
pick 2 elective
pick 2 business building
pick 4 skills based training
pick 2 science and skin histology
pass expert assessment

- ☐ The participating Professional Skin Therapist must possess a valid license.
- ☐ The participating Professional Skin Therapist must be currently employed with an active Dermalogica Business Account.
- ☐ A model is required and must be provided by the participating Professional Skin Therapist.

Participants will be required to perform a service of their choice on their model.

The assessment will focus on the following key aspects:

Communication

- Effective communication with the client/model to assess their skin needs and determine if there are any considerations/contraindications.
- Addressing client/model concerns and providing relevant skincare recommendations.
- Verbally explain to your observing instructor the reason for your product selections and application methods (i.e. power up or power down).

Product Selection

- Demonstrating the ability to choose appropriate exclusive Dermalogica products for the selected service.
- Knowledge of Dermalogica product ingredients and their benefits for specific skin concerns.

Technique Execution

- Proper Dermalogica application techniques relevant to the chosen service.
- Adherence to Dermalogica best practices and safety protocols.

Observation and Evaluation

- Participants will be observed by a Dermalogica Instructor to ensure correct product application and technique execution.
- Instructors will provide constructive feedback on areas of strength and improvement.

Assessment Details

- Participants will contact the Education Guidance Team to register for a 2-hour assessment workshop.
- Lesson plan will include instructor overview, expectations and allow time for one-to-one feedback.
- Your hands portion will include 60-minutes to perform Consultation, FaceMapping and 30 min service protocol. This added time allows for interactive communication with your assessment instructor.
- Equipment and Products: All necessary equipment and products will be provided inperson by the Learning Loft.
- D streaming participants are required to have all Dermalogica products and equipment necessary to perform the selected service protocol.

Attire

- Participants should arrive on time and dress in appropriate professional attire for skincare services.
- Long hair should be pulled back, minimal jewelry and short nails are recommended.
